

The **eGalaxy Reseller Web Store Training** is an online course designed to help the Galaxy System Administrator and Web Store Administrator master the eGalaxy Reseller Web Store module. Learn how to take control of your reseller ticket sales and reduce the costs associated with reseller channels. Discuss the many ways this flexible module can be configured to meet your needs while incorporating the established best practices to reduce your risk.

You'll learn:

- **How to configure an eGalaxy Reseller Web Store**
- **How to guarantee your profits by controlling reseller pricing**
- **How to run reseller sales reports and immediately realize your revenue**
- **How the eGalaxy Reseller Web Store can help you eliminate the cost and potential waste associated with preprinted tickets**
- **How to use prepayment accounts to increase the number of resellers with whom you work while minimizing your risk**

This course is held online using Microsoft Live Meeting. Logon information will be sent after you register.

Location: Online · Duration: 4 Hours (Consisting of 2 sessions with a 1 hour break between them) · Tuition: \$500
