

Software Developer Job Posting

Company Description:

Gateway Ticketing Systems, Inc is the world leader in high-speed admission control and ticketing software for the attraction, amusement and intercity bus transportation industries. We are looking for a full time developer to help our team continue moving forward.

What we offer to you:

- Competitive salary
- Medical, dental, vision and prescription benefits
- Personal and vacation time
- Life and disability insurance
- 401k plan
- Flexible hours
- Casual work environment

Job Description:

You will be responsible for supporting and maintaining current applications as well as developing new software for ticketing systems used in amusement parks, museums, zoos, aquariums and the transportation industries. Translating software requirements into concise and accurate code is an important part of this position. You will be asked to provide analysis related to software design and development. Problem solving skills are necessary.

Skills:

- Bachelor's degree in Computer Science
- 1-3 years of corporate development experience
- Experience with Delphi and MS SQL Server or other Object Oriented Programming language
- Experience with C#
- General knowledge and/or experience in hardware programming, database programming and scripting

Additional Information:

Please send resume and salary requirements to employment@gatewayticketing.com. We can only accept applicants who have the permanent legal right to work in the United States and are available for an interview in Pennsylvania. Gateway Ticketing Systems, Inc. does not discriminate in employment matters on the basis of race, color, religion, gender, national origin, age, military service eligibility, veteran status, sexual orientation, marital status, disability, or any other protected class. We support workplace diversity.
