

Debit and Stored Value Cards

A Comprehensive Cashless Payment Program for POS Purchases

Accept Gift Cards With Other Payments
Tender transactions with a combination of gift card and other forms of payment. Multi-payment mode can be automatically enforced whenever a gift card is selected for payment to decrease transaction steps.

Integrated Gift Card Sales and Payments
Sell gift cards from any Galaxy Point of Sale station. Print stored value barcode identifiers on tickets, receipts, or plastic cards.

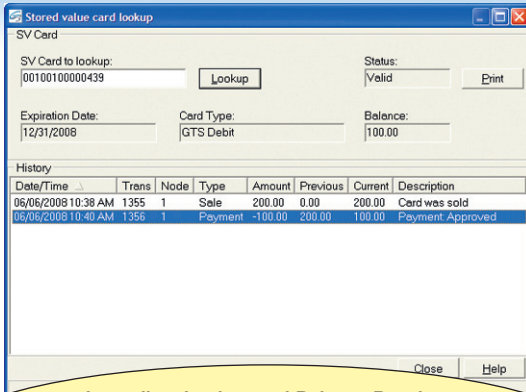

Galaxy Debit is a comprehensive, integrated stored value and gift card program for Galaxy Point of Sale purchases. It offers guests the convenience of using or purchasing predefined or open-value debit cards from any Galaxy POS station. Print the card on plastic or paper-plastic composite ticket stock for added durability. Guests can add value to existing cards or combine cards to manage spending capacity within the facility. Galaxy Debit tracks the balance of the card, providing an advanced gift card system with integrated reporting.

With Galaxy Debit you can:

- **Increase Revenue with Integrated Debit Programs**
Sell gift cards from any Galaxy Point of Sale station. Gift and debit cards have proven to increase customer spending.
- **Quickly Assess Card Activity**
Debit Lookup enables a quick analysis of card activity and integrated balance receipts. Print balance receipts for guests to keep track of their gift card spending.
- **Offer Guests Predefined or Open Card Values**
Issue predefined or open card values. Cards can be recharged at any time.
- **Choose from a Variety of Card Printing Options**
Print stored value barcodes on plastic cards, paper, or plastic-paper composite ticket stock. Use scanners to immediately apply gift card payments or look up gift card balances.
- **Track Card Issuance**
Report on the number of cards issued during a time period. Identify total revenue collected from the sale of gift cards or track which sellers are promoting your gift card program best.
- **Accept Gift Cards With Other Payments**
Tender transactions with a combination of gift card and other forms of payment. Multi-payment mode can be automatically enforced whenever a gift card is selected for payment to decrease transaction steps.

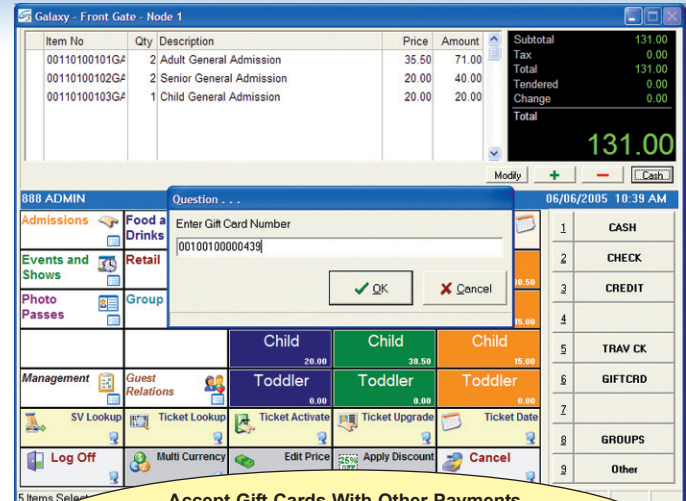

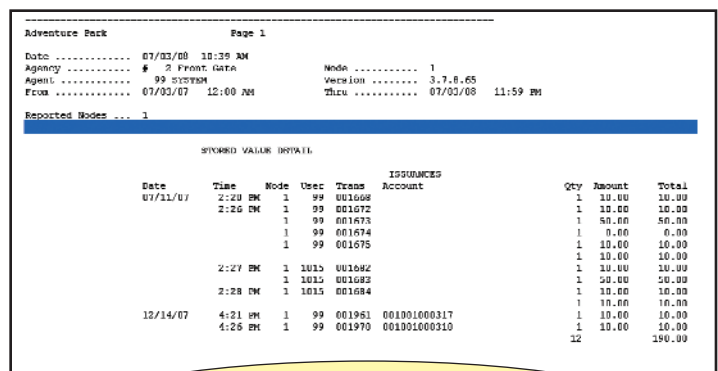

Immediate Lookup and Balance Receipts
 Identify outstanding balances on gift cards and view card history. Print balance receipts for guests to keep track of their gift card spending. Look up balances during or between transactions.
