

The Galaxy[®] Interface to The Raiser's Edge[®] Create Membership in Minutes

Galaxy and The Raiser's Edge Quickly and Easily Share Data!

Quickly and Easily Add New Memberships
Share data between Galaxy and The Raiser's Edge immediately. Decrease data entry processing time and immediately print photo ID cards for new members.

The Galaxy Interface to the Raiser's Edge is an application that imports and exports data between the Galaxy database and The Raiser's Edge, a non-profit database software program. These two applications provide a comprehensive software solution that non-profits can use to save time, improve efficiency and increase profits.

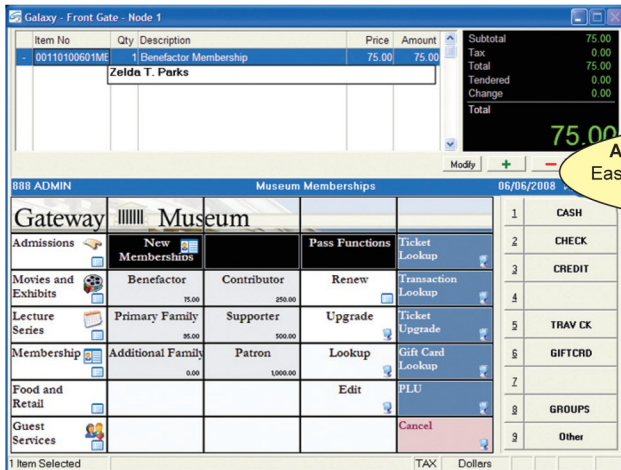

With The Galaxy Interface to the Raiser's Edge you can:

- Create New Memberships On the Spot**
 With The Galaxy Interface to The Raiser's Edge, you can produce new memberships at your front desk immediately. Create single memberships or a joint membership among multiple constituents.
- Instantly Print Personalized, Souvenir-quality ID Cards**
 Membership cards can be printed right at the point of sale. Use paper, plastic coated paper, or plastic ID cards with a color or black and white photo. You choose the option that best fits your budget.
- Enter and Manage Data More Efficiently**
 No need to enter membership data multiple times in multiple databases. Data entered into Galaxy goes directly into The Raiser's Edge.
- Easily Track Membership Usage**
 Keeping track of membership usage at Galaxy Admission Control Stations enables you to target specific members based on usage, and track membership involvement in fundraising campaigns.

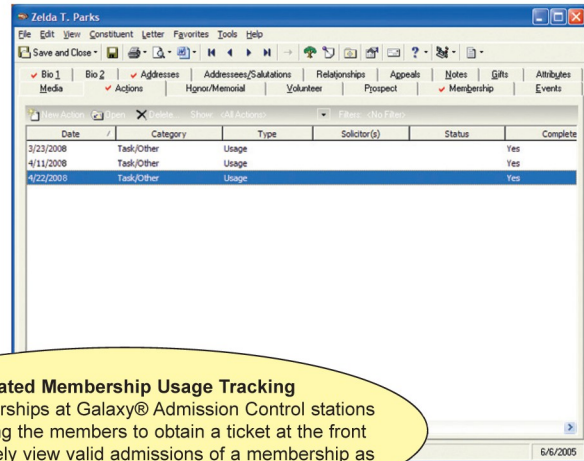

"We updated Northwest Trek with The Galaxy Interface to The Raiser's Edge about two years ago and our membership department has been singing the praises of it ever since. New memberships, Upgrades, and Renewals are a breeze and the member information is updated almost real-time so new members can get the benefits, such as discounts, in our retail shop immediately."

-Rich Snowden, I.S. Specialist, Point Defiance Zoo & Aquarium/Northwest Trek
